<p>TÍTULO:</p> <p>MANUAL DE CRIAÇÃO DA CONTA DE DESENVOLVEDOR DO TWITTER</p>	

Para criar uma conta de desenvolvedor no Twitter siga os seguintes passos:

Primeiro acesse o site: <https://developer.twitter.com/en>

Na tela inicial clique em Apply

Em seguida clique em Apply for a developer account

[Get started with Twitter APIs and tools](#)

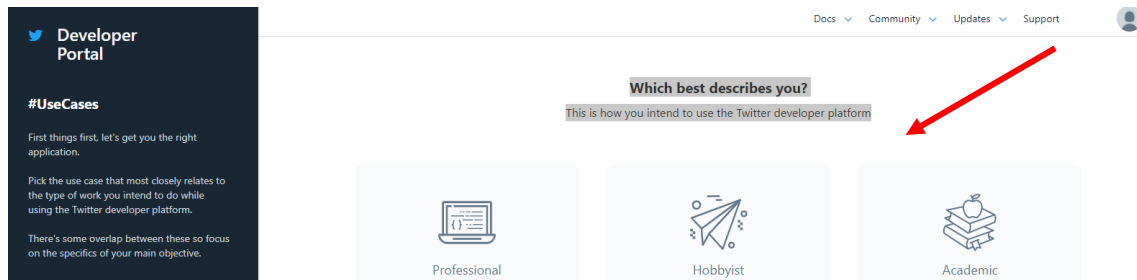

Apply for access

All new developers must apply for a developer account to access the Twitter developer platform. Once approved, you can begin to use our new Twitter API v2, or our v1.1 standard and premium APIs.

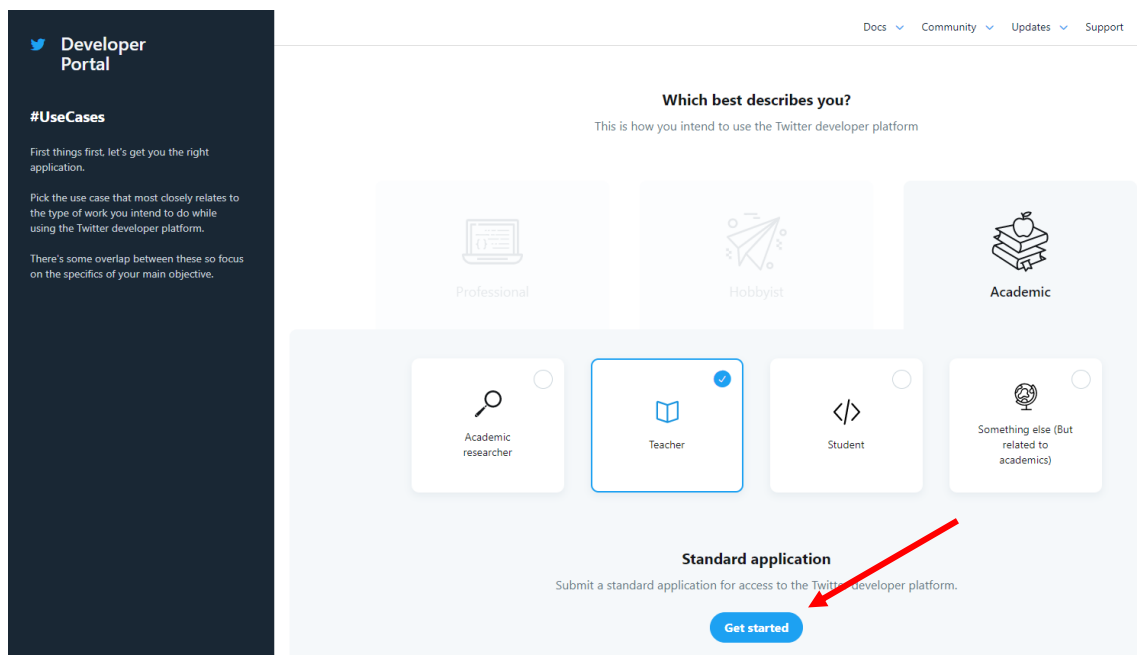

[Apply for a developer account](#)

[Restricted use cases >](#)

Selecione a opção mais adequada para sua conta.

Após a escolha clique em get started.

Caso não tenha o cadastro atualizado com o número de telefone, clique em Add a valid phone number e em seguida clique em Next.

 Developer Portal

#TheBasics

To start the application, you'll need to confirm your Twitter @username and the email associated with it. You'll use them to log in to the Developer Platform.

Individual accounts

If you're the only user, then you should apply for an individual developer account.

How will you use the Twitter API or Twitter Data?

In your words

In English, please describe how you plan to use Twitter data and/or APIs. The more detailed the response, the easier it is to review and approve.

Hello good Morning!
I am a teacher and I will use the data for academic purposes only. I will teach students how to collect tag data for analysis. Cloudy examples of Tags for the most talked about subjects, sentiment analysis, trends.

The specifics

Please answer each of the following with as much detail and accuracy as possible. Failure to do so could result in delays to your access to Twitter developer platform or rejected applications.

The specifics

Please answer each of the following with as much detail and accuracy as possible. Failure to do so could result in delays to your access to Twitter developer platform or rejected applications.

Are you planning to analyze Twitter data?

☒ Yes

Please describe how you will analyze Twitter data including any analysis of Tweets or Twitter users.

I will teach students how to perform collections using keywords and tags. I will use the data only to create clouds of tags, sentiment analysis and trends.

Will your app use Tweet, Retweet, Like, Follow, or Direct Message functionality?

☐ No

Do you plan to display Tweets or aggregate data about Twitter content outside Twitter?

☒ Yes

	DATA SCIENCE & ANALYTICS
TÍTULO: MANUAL DE CRIAÇÃO DA CONTA DE DESENVOLVEDOR DO TWITTER	

Do you plan to display Tweets or aggregate data about Twitter content outside Twitter? ☒ Yes

Please describe how and where Tweets and/or data about Twitter content will be displayed outside of Twitter.

I will use a python code that will receive the collected tweets and from there, show the most spoken words of a given subject. Tag Clouds.

Will your product, service, or analysis make Twitter content or derived information available to a government entity? ☐ No

In general, schools, college, and universities do not fall under this category

Pronto! Seu cadastro está concluído. Agora vamos criar um projeto para desenvolver nossas aplicações.

Acesse o site <https://developer.twitter.com/en/support> e clique em Developer Portal

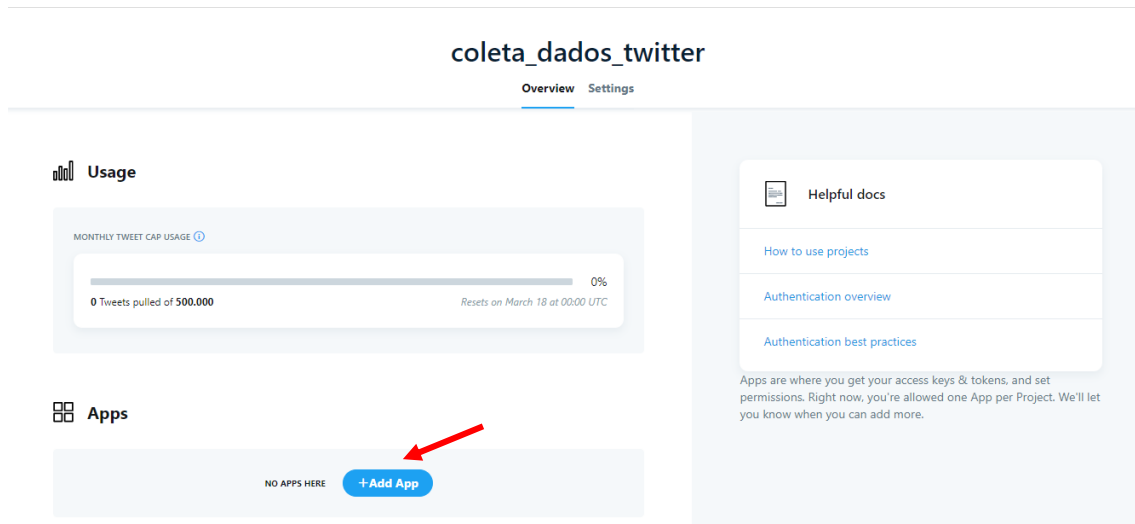

Na tela principal do portal do desenvolvedor do Twitter, clique em Projects & Apps e em seguida clique em Overview.

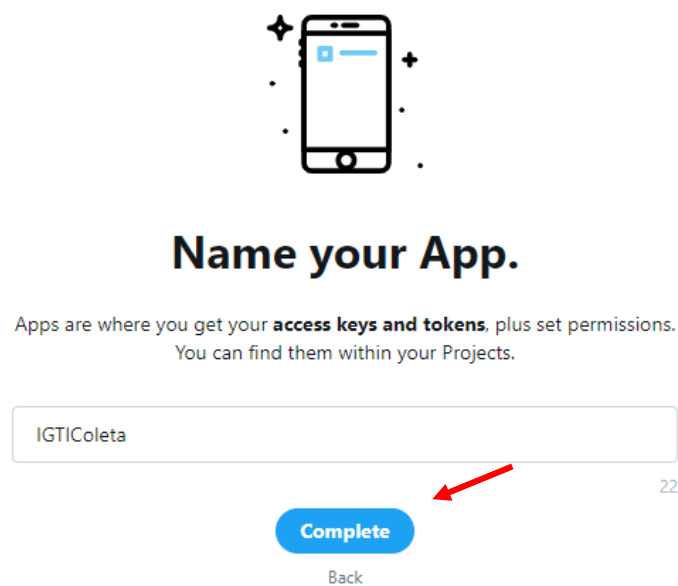

Após isso, cliquem em New Project e informe o nome do seu projeto.

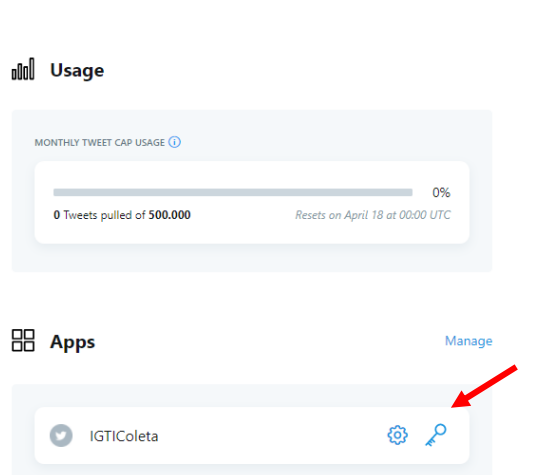

Feito isso clique em + Add APP

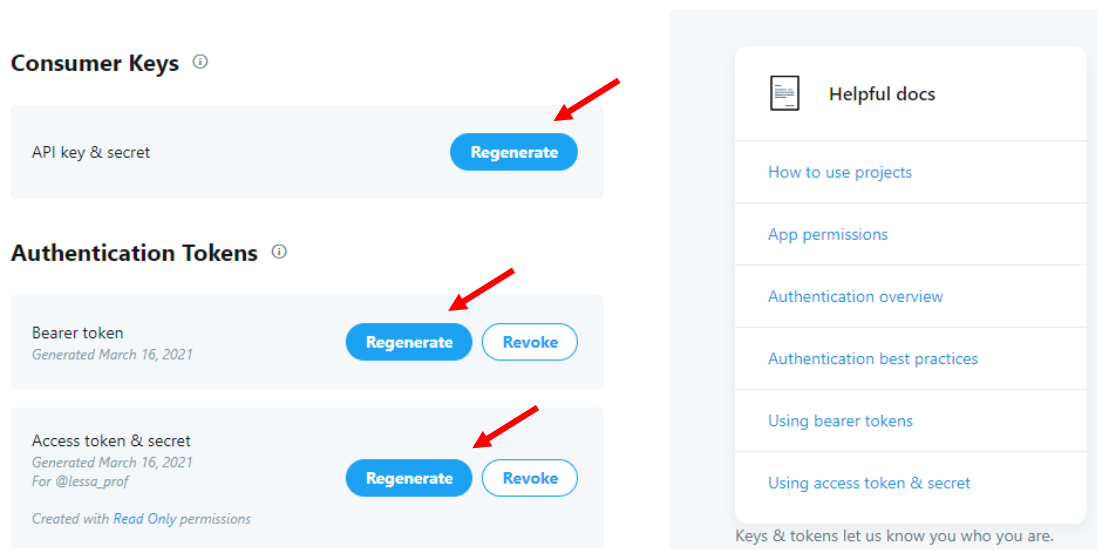

Insira o nome do seu APP e em seguida clique em Complete.

Agora vamos criar os tokens de acesso. Clique no ícone da chave.

Clique em Regenerate e crie os tokens de acesso

Copie as chaves geradas e salve em um arquivo txt.
